My Searches

Find

Subject

Grade

If you want to find standards about a particular topic or skill, click **Search**.

If you want to look through a complete set of your standards for a subject, grade, or content area, click **Browse**.

Starting your search

To search, enter any keywords or a phrase that may appear in the standard.

By default, search results include ALL the standards that contain ANY of the words you specified.

To find a particular phrase, put quotes around it.

My Searches

Find

Subject

Grade

You can also limit your search results to standards that apply to a particular subject or grade.

The grades in the list depend on the state or province you selected.

AND between words limits your results to standards that contain both words.

NOT before a word limits your result to standards that *don't* contain that word.

Once you've set up your search, click to find the matching standards.

Browsing and drilling down

If you **Browse**, at the highest level, each subject appears next to a closed folder (📁).

Click on any open folder (📁) to close it and redisplay all folders at that level.

Click on any closed folder to open it and display the next level down.

- 📁 Mathematics
- Grade**
- 📁 Early Elementary
- State Goal**
- 📁 10: Collect, organize and analyze data using statistical methods; predict results; and interpret uncertainty using concepts of probability.
- Learning Standard** - As a result of their schooling students will be able to:
 - 📁 A Organize, describe and make predictions from existing data.
 - 📁 10.A.1a Organize and display data using pictures, tallies, tables, charts or bar graphs.
 - 📁 10.A.1b Answer questions and make predictions based on given data.

Keep drilling down until you reach a level of the standard that meets your needs.

 indicates the lowest level of the hierarchy.

By clicking on , you'll access web sites and titles related to the standard.

Finding supporting web sites

Clicking  opens a list of educator-approved Web Sites for that standard.

To help you determine the relevance of each site, each includes a summary and a list of the topics associated with the web site.

To view the content, click either the title or the URL.

Tip: Save the web sites you like in your Resource List.

To refine the scope of your search, click [Refine your search](#).

For a printer-friendly page, click .

The screenshot shows the 'Web Sites' tab with search results for 'Learning Standard A'. Two results are visible:

- MathMagic:** Includes a summary, a 'Grade Level' filter with icons for K-5, 6-8, and 9-12, a 'Topic' of 'Mathematics--Data processing', and a URL: <http://www.mathforum.org/mathmagic/index.html>. An 'Add to this List' button is present.
- Create a Graph:** Includes a summary, a 'Grade Level' filter with icons for K-5, 6-8, and 9-12, a 'Topic' of 'Graphic methods', and a URL: <http://nces.ed.gov/nceskids/graphing/>. An 'Add to this List' button is present.

Each web site has been evaluated for grade appropriateness.

Each listing contains one or more of the following icons that show its suitability:

-  Grades K-5 (Kindergarten to 5th grade)
-  Grades 6-8 (Middle School)
-  Grades 9-12 (High School)

Finding supporting library materials

Opening the **Titles** tab provides you with a list of up to one hundred of the most relevant library materials.

Click  to see more about a title.

To return to the web sites, open the **Web Sites** tab.

The screenshot shows the 'Titles' tab with search results for 'Learning Standard A'. Two results are visible:

- Graph coloring problems:** Shows '1 of 1 available' and an 'Add to this List' button.
- Graph games:** Shows '1 of 1 available' and an 'Add to this List' button.

 adds all the titles on the page to your List.

 adds just the one title to your List.
